Amsterdam, The Netherlands; 15th October 2015 – AerData, the provider of lease management, records management and engine fleet planning software, announced today at MRO Europe that ACS Aero Management Ltd. (Subsidiary of Aero Capital Solutions, Inc.), has chosen AerData's Corporate Management System (CMS) software to support technical records management and technical audit and inspection data management.

AerData CMS is an industry-leading platform that supports all business processes in aircraft leasing and asset management.

Ebbe Bjerg, Vice President of European Operations, ACS Aero Management said, "Our experienced team were already familiar with AerData's products, services and people so it was a logical choice to consider the CMS application to support our rapidly expanding business. We see our future growth relying heavily on using this tool to be the foundation for all our technical and financial processes."

Commenting on the announcement, Mark Nieuwendijk, Managing Director of AerData said, "We are pleased to announce ACS Aero Management as our newest CMS customer. ACS Aero Management, in choosing AerData, will realize the many benefits of using our industry standard lease and asset management platform to support and expand its business activities."

About AerData

AerData provides lease management, records management, engine fleet planning and audit and inspection software as well as technical and back office services for aircraft and engine operators, lessors and MROs. With a strong customer focus, AerData delivers a reliable and secure service to its clients using latest technologies and state of the art infrastructure.

AerData was acquired by The Boeing Company and became part of Boeing Commercial Aviation Services in May, 2014. AerData products are now part of the integrated suite of aviation services marketed as the Boeing Edge. These include parts, training, engineering, maintenance and software solutions that increase the efficiency and profitability of airlines and leasing companies.

About Aero Capital Solutions and ACS Aero Management

Aero Capital Solutions, Inc. is rapidly becoming a worldwide leader in the leasing and trading of commercial aviation assets. Having successfully executed more than 200 transactions over the last five years, ACS continues to build upon an expanding lease portfolio while also providing innovative maintenance avoidance solutions across a wide range of aircraft and engine types. Aero Capital Solutions, Inc. supports a global customer base through its corporate headquarters located in Austin, Texas as well as the Dublin-based ACS Aero Management Ltd.
